

# Supplier Documentation Requirements

---

## DEJI GLOBAL TRADES INC. — Procurement Assessment for Bulk Mineral Supply

DEJI GLOBAL TRADES INC. is evaluating qualified mining companies for the supply of bulk mineral commodities. To proceed with due diligence and commercial discussions, we require comprehensive documentation demonstrating your capacity and track record to deliver the following quantities:

- **20,000 tonnes of Kunzite**
- **30,000 tonnes of Carbonate**

To support this assessment, please provide:

### 1. Evidence of Past Deliveries

- Records of previous shipments and completed contracts
- Bills of lading, export documents, or delivery certificates
- References from past buyers (where available)

### 2. Mining Operations Documentation

- Recent videos and photographs of the mining site
- Information on current production capacity
- Details of processing, storage, and logistics capabilities

### 3. Laboratory Analysis Reports

- Independent laboratory reports confirming mineral composition and grade
- Documentation showing derivative and quality specifications of the material

### 4. Commercial Information

- Current price list
- Pricing structure based on volume
- Applicable Incoterms (FOB, CIF, etc.)
- Estimated lead times for delivery

---

Providing the above information will help us evaluate the supplier's capability to meet the required volumes and proceed with the next stage of discussions.
